

# One assured operating picture above, on and below the waterline.

## OPERATIONAL PRESSURE

Offshore integrity work spans hazardous topsides, height, splash zones and subsea assets, with weather, logistics and limited specialist access complicating evidence continuity.

## QUANTEON RESPONSE

Quanteon coordinates aerial, ground, surface and subsea missions around one living twin and one traceable authority and evidence model.

## MISSION PORTFOLIO

Illustrative mission patterns · platform and payload subject to site qualification

### Topside leak patrol

Gas array · OGI · thermal

### Derrick and flare close visual

Zoom · thermal · LiDAR

### Splash-zone structural survey

Imaging sonar · visual · CP

### Hull and intake screening

Side-scan · bathymetry · ROV visual

## IDEAL CUSTOMER PROFILE

- Offshore installation and operations
- Structural, subsea and asset integrity
- Marine assurance, inspection and HSE

## START WITH ONE MISSION

**Baseline one topside leak patrol or structural survey and its marine operating envelope.**

## ASSURED MISSION BASELINE

**10 working days · CHF 25k fixed · no hardware purchase**

**SCOPE A MISSION**
